

Capability Statement

**SUPPLY CHAIN, FABRICATION,
RENTAL & HIRE SERVICES**

SUPPLY CHAIN, FABRICATION, RENTAL & HIRE SERVICES

MARTEQ ENERGY has excellent vendor relationships/association with technology partners supporting quality, value-add solutions and innovation:

- Stand Pipe System
- HDPE Pipes, Fittings & Accessories
- Rental/Supply of Generators Systems
- Supply of UPS Systems
- Specialised Pipes and Fittings
- Consumables, General stores items
- Sign board and Art work
- Transport and Logistics Services
- Onsite Fuel Refuelling
- Rental services of Generators, Compressors, Fuel Tanks, Pumps, and Lighting Towers (solar, diesel).

At MARTEQ ENERGY, we prioritize efficient supply chain management, fabrication, and reliable equipment rental to support Mining, Oil & Gas and Power Generation projects.

Our strong vendor relationships and technology partnerships ensure cost-effective, high-quality solutions, enabling seamless operations and timely project delivery.

1. Stand Pipe System

We provide high-quality standpipe systems for water management in mining operations. Our systems are designed for efficiency and durability, ensuring reliable water delivery in harsh environments, while supporting operational continuity.

2. HDPE Pipes, Fittings & Accessories

Our supply of HDPE pipes, fittings, and accessories offers flexibility, strength, and resistance to corrosion, making them ideal for transporting fluids and gases in mining, oil & gas, and power generation projects. These durable materials guarantee long-lasting performance.

3. Rental/Supply of Generator Systems

MARTEQ ENERGY offers rental and supply services for generators, ensuring a reliable and continuous power supply to your projects. Whether for short-term or long-term needs, we provide high-capacity generators to keep your operations running smoothly.

4. Supply of UPS Systems

To safeguard your critical systems and equipment, we provide uninterruptible power supply (UPS) systems. Our UPS solutions ensure that your operations remain uninterrupted during power outages, protecting your investments and preventing

5. Specialized Pipes and Fittings

We supply specialized pipes and fittings that cater to the specific requirements of your operations. From custom materials to high-performance solutions, we ensure the reliability and efficiency of your pipeline systems in even the most demanding environments.

6. Consumables & General Store Items

MARTEQ ENERGY offers a wide range of consumables and general store items, ensuring that you have everything you need for smooth, day-to-day operations. From safety gear to essential equipment, our inventory management ensures fast and efficient delivery.

7. Signboards & Artwork

We provide high-quality signboards and artwork for your project sites, enhancing safety and communication. Our solutions meet regulatory requirements and contribute to the visual aesthetics of your site while ensuring clarity and compliance.

8. Transport & Fabrication Services

We offer reliable transport and logistics services to ensure that equipment and materials reach your project site on time. With experience in managing logistics for remote and large-scale operations, we ensure your project's seamless execution from start to

9. Onsite Fuel Refueling

Fuel management is a critical part of any project. We provide onsite fuel refueling services to keep your equipment and machinery operating without interruption. Our refueling services are efficient, reliable, and designed to meet the unique demands of your project.

10. Equipment Rental: Generators, Compressors, Fuel Tanks, Pumps, Lighting Towers (Solar, Diesel)

MARTEQ ENERGY offers flexible rental options for a wide variety of equipment, including generators, compressors, fuel tanks, pumps, and lighting towers (solar and diesel). Whether you need temporary or long-term solutions, we provide the right equipment tailored to your project needs.
