## MARTEQ ENERGY - CAPABILITY STATEMENT

Design Engineering Services / Supply Chain, Fabrication, Rental & Hire Services  
/ Statutory Inspection Services

# ABOUT OUR COMPANY

## COMPANY OVERVIEW

Marteq Energy is an Aboriginal Indigenous company with a global presence and local offices in Newman, Perth, and Western Australia , Design and Engineering office in Singapore and India. MARTEQ ENERGY is a leading Project Delivery, Finite Element Analysis (FEA), FEA Simulations, Structural Design, Civil, Mechanical, Electrical Design, Customs products design, third-party certifications, CFD DEM, Project Management & Engineering Consultancy, Supply Chain, Fabrication, repair life extension, decommissioning, Management Consultancy services with maintenance & on-site support, statutory inspections fire system pressure vessel and asset integrity inspections for oil & gas and mining industry.

## VISION

- ✓ To be the Innovators of Future Trends
- ✓ To be the Prime Choice Globally for Cost Effective Floating and Fixed Facilities.

## MISSION

To grow in our niche as a leading provider of innovative and cost-effective technological solutions for the global floating and fixed facility industry. We aim to distinguish ourselves with our meticulously performance oriented approach and customer-centric deliverables.

## GLOBAL LOCATIONS

Our world-wide network covers the main oil and gas producing regions and engineering and manufacturing centres.

## OUR COMMUNITY COMMITMENT

At MARTEQ ENERGY, we value the relationships we've built in the communities where we work. With a strong history of recruiting and developing local talent, we are committed to creating opportunities that benefit people and regions.

We proudly support Indigenous youth through Connection and families through Ngala, while also contributing to local charities, events, and sporting groups. Through our Buy Local Policy, we continue to strengthen local industries and businesses, ensuring lasting community impact.

## FINANCIAL STRENGTH:

Marteq Energy have demonstrated the capacity to finance major oil and gas projects worldwide. Marteq Energy has been involved in the successful completion of the projects with an individual value ranging from \$1.2Million to \$25 Billion USD. Marteq Energy has the capacity to raise finance on the national and international markets. Marteq Energy is experienced in all aspects of the Life of an Oil & Gas Field' and has developed a 'Portfolio of Solutions' for application to modern low cost field developments. Marteq Energy has all the proven skills, assets, personnel and equipment in-house to successfully complete major projects.

## QUALITY AND SAFETY STANDARDS:

Project Engineering Management

Design Engineering Management

Supply Chain & Distribution

Ship buildings & Ship Repairs

Engineering Management

Risk Based / ATEX Inspection Services

CMMS Planning & PM Optimization

Statutory inspections / 3rd Party Inspections

NDT/ Rope Access Inspection Services

Offshore Maintenance / Freelance Manpower

## PROJECT ENGINEERING SERVICES

MARTEQ ENERGY has expertise in all project stages—from conceptual engineering, design, and 3rd party inspections to site installation and commissioning of plant and equipment.

- Project management
- Cost estimating
- Project scheduling & tracking
- Supply and construction scope documents
- Tender evaluation & Tender packages
- Construction technical support, on & off site
- Fabrication, supply and installation
- Site construction
- Quality Assurance
- Commissioning & handover

We have extensive experience in material handling facilities, custom plant and equipment, and processing circuits.

## DESIGN ENGINEERING SERVICES

MARTEQ ENERGY's experienced team delivers fit-for-purpose, high-quality designs with a "right first time" approach. We integrate drafting, as-built updates, and change management to maximize value and meet client requirements.

- Solid Edge 3D Modelling
- MicroStation V8
- AutoCAD

## FABRICATION AND INSTALLATION SERVICES

Our engineers and technicians deliver construction, commissioning, and maintenance services for FPSO, FPU, drill ships, and rigs, covering piping, mechanical, structural, HVAC, and electrical systems across oil & gas, mining, and marine sectors.

## NDT INSPECTION SERVICES

Our certified technicians deliver NDT services with advanced techniques, meeting international standards.

- Eddy Current Inspection (ET / ECT)
- Ultrasonic Testing (UT) / Ultrasonic Flaw Detection
- Hardness Testing (HT)
- Leak Testing (LT)
- Magnetic Particle Testing (MT / MPI) Tank Inspection
- Positive Material Identification (PMI)
- Radiography Testing (GAMMA / X-RAY)
- Ultrasonic Thickness Measurement
- Visual Testing / Visual Inspection (VT / VI)

## DECOMMISSIONING SERVICES

Marteq Energy provides safe, cost-effective decommissioning of offshore infrastructure, including platforms, subsea hardware, and FPSOs. Our services cover engineering, project management, marine operations, FPSO system support, and end-to-end solutions from concept to execution.

## FREELANCE MANPOWER SUPPLY SERVICES

### QA/QC Services / Third Party Inspection Services

- QA /QC Manager | Engineer | Inspectors | Technicians
- Welding Engineers | Welding Inspectors NDT Engineers / Inspectors / Supervisors
- Piping Engineers / Inspectors
- Structural Engineers / Inspectors
- Mechanical Engineers / Inspectors
- E & I Engineers / Inspectors ( ATEX & Compex Inspectors )
- Painting & Coating Engineers / Inspectors
- Insulation & Fire Proof Inspector ( ICorr Level 2)
- Civil Engineers / Inspectors HVAC Engineers / Inspectors

### Electrical & Instrumentation Commissioning Services

- E&I Lead
- E&I Engineer
- E&I Supervisor
- E&I Tech / Senior Technician

### Mechanical Commissioning Services

- Mechanical Manager / Lead
- Mechanical Engineer
- Mechanical Supervisor
- Mechanical Tech / Senior Technician

### Other Technical Manpower Supply

- CAD Designer
- HSE Supervisor
- HVAC Technician
- Pipe Fitters/Structural Fitters/Welders
- Scaffolders/MC Coordinators/Painters
- Rigger/Fire watchman/General worker

## SUPPLY CHAIN SERVICES

Marteq Energy has in Lay-house team of Contracts and Procurement Experts with Global Industry Experience in,

- Specialist knowledge, experience, expertise, contacts, systems and technology to define global procurement models, conceive strategy and design optimal procurement governance structures
- All contracting and procurement functions will be conducted in full compliance with the Client's protocols that includes PSCs, RFQ, HSE&Q, Cost Recovery, Local Content and other Corporate Policies on purchasing, ethics, anti-corruption and audit compliance requirements.

All long lead items are identified and ordered during initial stages of the project. Our team maintains, evaluates and expands on reliable sources and backup sources to ensure supplier delivery meets the project requirements.
